

Community Hospital

Community Hospital Laboratory
is pleased to offer you
comprehensive, cost-effective
laboratory services with
unparalleled quality.

In conjunction with

MAYO CLINIC
Mayo Medical Laboratories

Community Hospital provides laboratory services focused on patient-guest care. We are committed to providing accurate, timely, cost-effective, laboratory testing for your patients.

Our knowledge and expertise provides the information you need to help your patients maintain or return to good health.

Our Vision

To be the Western Colorado and Eastern Utah laboratory services provider of choice.

Our Mission

Community Hospital Laboratory is dedicated to providing timely, high-quality results, and unparalleled customer service.

Our People

Our professional staff of board-certified pathologists, technologists, histotechnicians, and patient-guest support personnel are highly trained and dedicated to putting the patient-guest first.

We offer excellent clinical consultations and assistance in problem solving. Call our Customer Service partners at 970-256-6460.

Dean M. Havlik, M.D.

Dr. Havlik is a graduate of the Medical College of Pennsylvania and served his pathology residency at the University of New Mexico Health Sciences Center. He is the medical director of the Community Hospital Laboratory and he specializes in anatomic, clinical and forensic pathology.

Robert A. Kurtzman, D.O.

Dr. Kurtzman is a graduate of Des Moines University College of Osteopathic Medicine and Surgery. He completed his general and forensic pathology training in Detroit, Michigan. He has been practicing at Community Hospital since 1992.

Tara L. Marshall, M.D.

Dr. Marshall completed her medical school and pathology residency training at the University of Washington School of Medicine. She is board certified in anatomic and clinical pathology and has special expertise in gastrointestinal and hepatic pathology.

Our Benefits

Effective and efficient health care requires the willingness to find solutions through new approaches. Community Hospital, in conjunction with Mayo Medical Laboratories, provides you with quality, cost-effective diagnostic options that are local and responsive to the changing health care landscape.

Our laboratory benefits health care providers and their patients by offering:

Convenience

- We offer STAT availability 24 hours a day, 7 days a week.
- Comprehensive in-house test menu for prompt laboratory service and timely reporting.
- Most routine testing is completed the same day.
- We provide rapid reporting by Quality Health Network (QHN), fax, courier or mail.
- Our service area reaches from Western Colorado to Eastern Utah and we provide daily courier services, STAT and on-call pickups.
- We offer outreach services for inpatient, outpatient, physician offices, nursing homes and assisted-living facilities.

Consultation

- Prompt follow-up for clinical and anatomic pathology.
- Timely consultation regarding test selection.

Clinical Excellence

- Test protocols and menus are tailored to meet the scientific and clinical needs of patient-guests and medical professionals.
- Decreased turnaround time allows for expedient patient-guest care and reduced diagnosis time.
- A large menu of tests and panels are available.
- Test methodologies and interpretation consistently represent the highest quality of care.

- Quality continuing medical education programs are provided in collaboration with Mayo Medical Laboratories.

Customer Service

- Our service is efficient and courteous in meeting our patient-guest needs.
- Our customer service team is exceptionally responsive to business client concerns.
- Our local pathologists and laboratory professionals offer consultative support and are highly accessible.

Competitive Pricing

- Competitive pricing established on all tests
- Patient, insurance, or client billing options

Client Services

- Routine reporting on status of testing in progress
- Resources provided for specimen and special-handling requirements
- Available to discuss fees or billing policies
- Availability of unlisted tests is provided quickly by phone
- Convenient procedures for adding tests to specimens already in-house

Our Primary Reference Laboratory

Community Hospital utilizes Mayo Medical Laboratories for its esoteric testing needs. Mayo Medical Laboratories, the reference laboratory for Mayo Clinic, is a distinctive leader in the field of esoteric testing and offers consultations with its physicians and scientists. This collaboration strengthens our efforts to provide exceptional laboratory services and patient care to Western Colorado and Eastern Utah.

Community Hospital
